FINAL DAYS OF GIVING

We Are in the Home Stretch!

We’re on the home stretch our CFC drive—time to put the pedal to the metal and finish strong. The Combined Federal Campaign and its participating charities are depending on your contribution to make a world of difference for many lives.

Of course, giving can be a challenge during the holiday season. You might not feel like there’s much left in the "tank". But here's the secret of giving:

You always get back more than you give!

So, what are the benefits of giving?

- People who donate are happier and more productive.
- People who give experience more joy than those who do not.
- You can have impact in your community.
- Volunteering improves your health and cognitive functions.

A recent study found that 40% of Americans give for one simple reason: a friend asked them to give.

Commit "5" Challenge!

"CSC" ~ Commit to share with 5 Colleagues why you give. Ask them if they'll make a contribution to a cause that matters to them.

You'll be surprised how many people say, "YES!"
Collective giving has a HUGE impact. While many may think that $1 a pay period will not amount to much, that can't be further from the truth!

With the power of collective giving if every federal employee in the CarolinasCFC zone (which is 232,826) gave just $1 per pay period we would raise $6,053,476 for various charities our federal donors elect to support! WOW

Let's Dig deep Carolinas and let's see what we can do in these final days of giving!

Invite your Favorite Charity to Participate in the CFC

Did you locate the cause you're passionate about, but not your favorite local charity? No worries, we have the answer to your problem.

Invite your favorite local charities to apply to be in the 2020 Combined Federal Campaign by completing this form. Click here
